2022-10-19T09:31:24.6029700Z ##[warning].NET 5 has some compatibility issues with older Nuget
```

versions(<=5.7), so if you are using an older Nuget version(and not dotnet cli) to restore, then the dotnet cli commands (e.g. dotnet build) which rely on such restored packages might fail. To mitigate such error, you can either: (1) - Use dotnet cli to restore, (2) - Use Nuget version 5.8 to restore, (3) - Use global.json using an older sdk version(<=3) to build

2022-10-19T09:31:24.6036715Z Info: Azure Pipelines hosted agents have been updated and now contain .Net 5.x SDK/Runtime along with the older .Net Core version which are currently lts. Unless you have locked down a SDK version for your project(s), 5.x SDK might be picked up which might have breaking behavior as compared to previous versions. You can learn more about the breaking changes here: <https://docs.microsoft.com/en-us/dotnet/core/tools/> and <https://docs.microsoft.com/en-us/dotnet/core/compatibility/> . To learn about more such changes and troubleshoot, refer here: <https://docs.microsoft.com/en-us/azure/devops/pipelines/tasks/build/dotnet-core-cli?view=azure-devops#troubleshooting>
